

23rd North American ISSX and 35th JSSX Meeting

Hilton Waikoloa Village, Hawaii | October 4-8, 2020

Register to attend at www.issxjssx2020.org

**A 2020 VISION FOR
BIOTRANSFORMATION
RESEARCH.**

Features of this Meeting

This meeting strives to bring individuals who are actively working on drug/xenobiotic research in diverse fields, including basic and clinical pharmacology and therapeutics, toxicology, oncology, endocrinology, physiology, biochemistry, medicinal chemistry, molecular and structural biology, and genetics. This is a great opportunity for attendees to learn, network, and collaborate with renowned, international scientists.

Meeting Venue

Special conference rates at Hilton Waikoloa Village, where all meeting events will take place, are available to all meeting attendees. The resort is located on a spectacular oceanfront playground on the Kohala Coast of Hawaii. Reserve a room by Friday, September 11 to receive the ISSX/JSSX special rates.

Registration

Visit the meeting website, www.issxjssx2020.org, to register for the 23rd North American ISSX and 35th JSSX Meeting.
